INTRODUCTION

This publication consists of two parts, Part A relating to the Central Office of the Commonwealth Bureau of Census and Statistics, and Part B to the State Offices. Part A is divided into I, a Catalogue of Printed Publications (pages 3 to 10); II, a List of Publications; and III, a Subject Index (pages 25 to 35). A catalogue or index is not provided for the State publications.

The publication relates only to current and recent issues of Bureau publications. For a complete list *see* Statistical and other official publications of Australia, pages 1153-7 of Commonwealth Official Year Book No. 52, 1966. Central Office publications issued during each month are listed inside the back cover of the *Digest of Current Economic Statistics* and on the back cover of the *Monthly Review of Business Statistics*; similar arrangements exist in corresponding publications for State Office issues. A monthly statement of publications issued by the Central Office and State Offices is available free of charge on application to the Commonwealth Statistician, Canberra.

How to obtain Bureau publications

Central Office. Publications for which prices are shown in Part A may be purchased either over-the-counter or through the post from The Director of Publications, Commonwealth Government Printing Office, Canberra, A.C.T.

When ordering publications through the post, the price including postage should be forwarded. Prices including postage in Australia are shown in the list; air mail and overseas rates are available on application.

The Director of Publications, Commonwealth Government Printing Office, will arrange account, standing order or reminder service facilities if required.

Publications for which prices are shown in Part A may also be purchased over-the-counter from the Office of the Deputy Statistician and the Commonwealth Sub-Treasury in each State capital or from booksellers.

A limited number of copies of these publications is available from the Commonwealth Statistician for distribution, free of charge, to members of Parliament, Commonwealth and State Government Departments, public bodies, and publicists.

Publications with no price shown are available in limited numbers free of charge upon application to the Commonwealth Statistician, Canberra, with whom regular dispatch may be arranged. Occasional copies are available from the offices of the Deputy Commonwealth Statisticians.

When applying for publications, *the title and the reference number shown in the list* should be quoted. This is particularly important following the publication of this issue because most of the reference numbers have been changed since the previous issue.

State Offices. Publications in Part B are available from the Deputy Commonwealth Statisticians in the several States; those with no price shown are available in limited numbers free of charge.

Apart from the issue of publications, each Office provides information in response to individual requests. In certain cases where data must be specially extracted and a regular return is required, a charge is made for supplying this information.

CATALOGUE OF PRINTED
PUBLICATIONS

This Catalogue presents an outline of the contents and nature of the major (printed) Central Office publications. The general publications (Official Year Book, Pocket Compendium, etc.) are described first (pages 3-4); then follow the annual bulletins or reports on demography, finance, production, overseas trade, transport and communication, and labour, employment and prices (pages 4-8); and finally the population, retail establishments, and motor vehicle census publications. Reference numbers following the title of each publication relate to the complete list of *all* current and recent Central Office publications on pages 13-22.

A.I. CATALOGUE OF PRINTED PUBLICATIONS ISSUED BY THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

OFFICIAL YEAR BOOK OF THE COMMONWEALTH OF AUSTRALIA (1.1)

The principal general reference work of the Bureau's Central Office. Provides a comprehensive and fairly detailed statistical review of all aspects of the economy and social condition of Australia for which official statistics are available. Contains also descriptive matter dealing with Australia's history, geography, physiography, climate and meteorology, defence services, and international relations. Among items included in the current issue (No. 52) are the complete text of the Constitution of the Commonwealth, details of Commonwealth referendums for alteration of the Constitution, a diary of principal economic events for the year 1965-66, a chronological table of chief events, 1955 to 1966, and a statistical summary of selected items and years over the period 1901 to 1966. Each issue includes one or more 'special articles', each of which deals at some length with a particular subject relevant to a part of the contents of the volume—the current issue contains the articles, The Soils of Australia (with coloured map), Travel and Tourism, and Outline of Research in Australia.

POCKET COMPENDIUM OF AUSTRALIAN STATISTICS (1.2)

A *pocket* year book, emulating the Year Book in comprehensiveness without the detail. Concentrates on 'basic' statistics, its aim being to provide something in all statistical fields, so that the inquirer can obtain an idea of the order of magnitude or relative importance of a subject. Contains the names of current holders of vice-regal positions, members of the Commonwealth Parliament, Commonwealth and State Ministries, the Commonwealth judiciary, diplomatic representatives, and principal Commonwealth officials; and lists of Bureau publications, postal rates and public holidays.

QUARTERLY SUMMARY OF AUSTRALIAN STATISTICS (1.3)

A comprehensive quarterly publication intended primarily for the issue of annual and other cumulative series, it contains a wide range of economic and social statistics, differing in respect of the latter from the *Monthly Review of Business Statistics*, which is restricted mainly to economic indicators. It is the earliest general publication in which a number of series appear, and is therefore a handy reference for the latest statistics available in a wide variety of fields.

MONTHLY REVIEW OF BUSINESS STATISTICS (1.4)

Contains also a map of Australia and a complete set of the State and Territory maps.

CENSUS OF RETAIL ESTABLISHMENTS AND OTHER SERVICES PUBLICATIONS (11.1-11.3)

These comprise a series of Bulletins 1-9, No. 1 relating to Australia, Nos. 2-7 relating to the States of New South Wales-Tasmania, and Nos. 8 and 9 to the Australian Capital Territory and Northern Territory respectively. The statistics contained relate to numbers of establishments, value of retail sales of goods, value of stocks, and persons employed, for the census year. Classifications are by commodity group, type of business, retail sales size, type of organisation, and category of employment. Comparisons with the previous census are included. State Bulletins contain dissections by statistical retail area and statistical division, and maps of the inner capital city area, the metropolitan area and the State, showing local government areas, statistical retail areas and statistical divisions. The Australian Bulletin contains information for the individual States and Territories, the State metropolitan areas, and Australia as a whole.

CENSUS OF MOTOR VEHICLES PUBLICATIONS (14.5)

These comprise a series of Bulletins 1-9, Nos. 1-6 (New South Wales-Tasmania), 7 and 8 (Northern Territory and Australian Capital Territory), and 9 (Australia). The statistics contained relate to the numbers of motor vehicles on the registers at census date. Classifications are by make and type of vehicle, year of model, horse-power, tare weight, carrying capacity, aggregate weight, passenger capacity (omnibuses), location (address on registration certificate), and ownership (private, Commonwealth Government, State Government, local government or semi-governmental). Some comparisons with the previous census are shown.

VALUE OF PRODUCTION (10.26)

The first issue of this bulletin, No. 1, 1964-65, is now with the Printer. It consists of the *Value of Production* section of the bulletin *Non Rural Industries and Value of Production* (see page 7) which, after the 1963-64 issue, will be published as two separate bulletins: *Non Rural Industries* and *Value of Production*.

MANUFACTURING INDUSTRY (12.11)

This bulletin, together with *Building and Construction* (see below), supersedes the bulletin *Secondary Industries, Part 1—Factory and Building Operations* (see page 7) which was discontinued after the 1962-63 issue. The statistics presented in *Manufacturing Industry* are a continuation of those formerly published in *Section 1—Manufacturing of Secondary Industries, Part 1*.

BUILDING AND CONSTRUCTION (3.1)

The first issue of this bulletin, No. 1, 1964-65, recently issued, continues and expands considerably the series formerly published in *Section II—Buildings* of the bulletin *Secondary Industries, Part 1—Factory and Building Operations* (see page 7). The statistics presented are now divided into seven sections: building approvals; new buildings commenced; new buildings completed; new buildings under construction; value of work done during period on new buildings; number of persons working on jobs carried out by builders of new buildings; building and construction industry—principal national income aggregates. The latter section is in addition to statistics previously published in *Secondary Industries, Part 1*, etc., whereas the former six expand and extend the series formerly published in that bulletin.

A II. CENTRAL OFFICE

LIST OF PUBLICATIONS

Publications listed on pages 13-22 comprise all Central Office current and recent publications. They are grouped into *General Publications* and *Other Publications*, and a separate group of *Population Census Publications* is added.

General Publications contain statistics on all major topics. They are, in the main, printed publications which contain statistics on a wide variety of subjects.

Other Publications comprise reports, bulletins, statements, surveys, etc., which deal mainly with particular fields or subjects, and are listed alphabetically according to topic. They are of three kinds:

- (i) printed publications (mainly annual) containing detailed tables of the main statistics collected;
- (ii) supplementary publications in mimeographed form (triennial, annual, half-yearly, quarterly, and monthly) which advance the statistics contained in (i), provide further detail, or issue new statistics;
- (iii) preliminary reports of special surveys or censuses, such as the Population, Retail Trade and Motor Vehicle Censuses in mimeographed form.

Population Census Publications have been issued in respect of each Commonwealth Census taken from 1911 to 1966, namely 1911, 1921, 1933, 1947, 1954, 1961 and 1966. Only the publications issued for the 1961 and 1966 Censuses are listed in the following pages, but details of publications for earlier Censuses are available on request. The issue of final results of the 1961 Census in printed form is almost complete, while preliminary figures from the 1966 Census are currently being issued in mimeographed form.

Publications of the *Census of Retail Establishments and Other Services* and the *Census of Motor Vehicles* are listed respectively under the heading of Retail Trade and Transport and Communication.

Frequency of issue is indicated as follows:

tri - triennially
a - annually
hy - half-yearly
q - quarterly

m - monthly
irr - irregularly
occ - occasionally

The *most recent issue* of each annual publication is shown in parenthesis.

Prices, where applicable, are shown in parentheses after the number and year of issue—in order, price excluding postage, and price including postage in Australia.

A III. SUBJECT INDEX TO PUBLICATIONS OF THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

This index is designed to show in which Central Office publications information on various subjects is to be found, and to serve as an aid in the selection and ordering of the appropriate publication required. The index is not intended as a comprehensive index of commodities or items, and items of production and of overseas trade, for example, are therefore largely omitted. The Table of Contents or Index to the relevant publication itself provides this further reference.

Because of the comprehensive range of statistics contained in the *Official Year Book of the Commonwealth of Australia* and in the *Pocket Compendium of Australian Statistics*, no references are given to them in this index, since reference would have to be made to virtually every item therein. Each of these publications contains a detailed index, and the former should be regarded as the principal general statistical reference work produced by the Central Office of this Bureau. No references are given to the Northern Territory and the Australian Capital Territory Statistical Summaries, which contain a comprehensive range of statistics for those Territories.

Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by bold type. Two or more references to a subject so indicated signify major, and approximately equal, importance. A number in brackets following 12.12 or 12.16 refers to the particular issue of the Manufacturing Industries Bulletin or the Production Summary respectively dealing with the subject indexed.
